

Prof. Dominique Thévenin Receives the OvGU Research Award 2016

18.11.2016 - Highest university Accolade for CDS researcher

For the second year in a row, a CDS scientist received this year's 19th 'Otto von Guericke Research Award'.

Prof. Dominique Thévenin, a fluid mechanics scientist of the University's

> Faculty of Process and Systems Engineering (<http://www.vst.ovgu.de/vst/en/>) is a full member of the CDS.

The awarding of the

prize was reasoned with his scientific accomplishments and outstanding innovations, which made the University visible nationally as well as internationally.
