

ERC Consolidator Grant for Excellent Systems Biology Research

14.12.2016 - Two Million Euros for interdisciplinary research project from the European Union

> [Dr.-Ing Steffen Klamt](https://www.mpi-magdeburg.mpg.de/klamt) received one of the prestigious Consolidator Grants of the European Research Council (ERC) entailing 2 Million Euros for his research. With the help of this generous funding, Dr. Klamt's > [group](http://www.mpi-magdeburg.mpg.de/39273/People) will investigate new methods for the computer-design of microbial cell factories to optimize the bio-based prod

Since 2009, Dr. Klamt is leader of the research group '*Analysis and Redesign of Biological Networks*' at the Max-Planck-Institute for Dynamics of Complex Technical Systems in Magdeburg. uction of chemical and biofuels.

Already in 2015, > [Prof. Sebastian Sager](https://www.cds.ovgu.de/cds/en/Archive/News+Archive/Older+News/ERC_Consolidator+Grant+for+Sebastian+Sager-p-52.html) - another member of the CDS -, was granted an ERC Consolidator Grant.
